

MINISTER FOR PETROLEUM & ENERGY

Office of the Minister

5th November 2019

4th Papua New Guinea Energy Summit

Dear Participants,

I am delighted to announce the 4th Papua New Guinea Energy Summit will take place on 8-10 June 2021, in Port Moresby and as new incumbent Minister for Petroleum & Energy I am delighted to confirm my support of the Summit.

The Ministry of Petroleum & Energy will continue to use this Summit as a key platform for disseminating information, as it has done for all three of the previous editions. We are at an extremely important juncture for the petroleum industry with key projects at critical stages in their development, it is important to do all we can collectively to ensure the projects yield the maximum benefit for the nation of Papua New Guinea. I would therefore encourage active participation from all stakeholders already involved or looking to get involved in the energy sector of Papua New Guinea.

The Summit will provide an opportunity for the entire value chain of companies - both national and international - to network, exchange ideas and help to drive the industry forward through knowledge sharing and collaboration.

As Minister for Petroleum & Energy in Papua New Guinea, I am delighted to support the 4th Papua New Guinea Energy Summit. The Papua New Guinea Government remains ready to welcome companies and individuals to Port Moresby for this event.

Yours sincerely,

Hon. Kerenga Kua, MP
Minister for Petroleum & Energy
